

# GARRETT GREEN

Software Engineer | Chicago, IL | 859.806.7918 | [Garrett.Wile.Green@gmail.com](mailto:Garrett.Wile.Green@gmail.com)

## Skills & Tools

**FRONT END:** JavaScript (ES6+), React, Redux, HTML, CSS, Material-UI, Semantic UI React

**BACK END:** Node, Express, Sequelize, PostgreSQL/ORM, RESTful APIs

**OTHER:** Git, Socket.io, Babel, Webpack, TDD, Mocha, Chai, Enzyme, Heroku, Travis CI, Passport (OAuth), React Router

## Projects

**Leftover Rover** | [LeftoverRover.com](http://LeftoverRover.com) - [github.com/leftover-rover](https://github.com/leftover-rover)

Mobile-first web app offering a unique on-demand delivery service. Built in a 15-day sprint.

- **FEATURES:** Real-time location tracking and in-app sharing (driver-to-customer), dynamic driving route creation, automated text/email updates, admin system management, algorithmic driver selection for efficient routes.
- **STACK:** Socket.io, React, Redux, Node, PostgreSQL, Express, Sequelize, Mapbox, Webpack, Semantic UI React
- **DEMO PRESENTATION:** <https://youtu.be/LfZ-SjpHyQU>

**Pass The Aux** | [pass-the-aux.herokuapp.com](http://pass-the-aux.herokuapp.com) - [github.com/garrett-green/pass-the-aux](https://github.com/garrett-green/pass-the-aux)

Spotify playlist-builder with Tinder-swipe mobile UX. Built in a 4-day hackathon.

- **FEATURES:** OAuth Spotify login/registration, device detection for preferred UX.
- **STACK:** Spotify API, React, Redux, Node, PostgreSQL, Express, Sequelize, Passport, Semantic UI React
- **DEMO PRESENTATION:** <https://youtu.be/Es8qzzDZgpk>

**Top-To-Bottom** | [top-to-bottom.herokuapp.com](http://top-to-bottom.herokuapp.com) - [github.com/top-to-bottom](https://github.com/top-to-bottom)

Custom e-commerce app built from the ground up. Built in an 8-day sprint.

- Led the architecture of database schema/seeding and oversaw project management to ensure the team worked in vertical slices.
- **FEATURES:** Persistent shopping cart, OAuth sign-up/log-in, automated email messaging, admin system management, secure checkout with custom Stripe integration.
- **STACK:** React, Redux, Node, Express, Sequelize, Mocha, Chai, Material-UI

**Today In Phishtory** | [@PhishtoryToday](https://twitter.com/PhishtoryToday) - [github.com/garrett-green/today-in-phishtory-twitterbot](https://github.com/garrett-green/today-in-phishtory-twitterbot)

Custom Twitter-bot that posts historical content about the band Phish.

- **STACK:** Node, Express, Twitter API, Phish.net API, Cron Jobs, Glitch.com

## Experience

**Fullstack Academy Of Code** | Chicago, IL

*Teaching Fellow* - January 2019 to April 2019

- Debugged, mentored and taught Javascript to over 70 students
- Oversaw four student projects as a technical mentor and project manager
- Performed weekly code reviews with students

**Freelance Writer** | Chicago, IL

*Writer & Content Creator* - July 2017 to August 2018

**VaynerMedia** | New York, NY

*Account Coordinator, General Electric & Revlon* - January 2017 to April 2017

*Assistant to the CEO, Gary Vaynerchuk* - March 2016 to January 2017

*Community Manager, General Electric* - April 2015 to March 2016

## Education

**Fullstack Academy Of Code** | Chicago, IL

*Software Engineering Immersive* - August 2018 to December 2018

- 17-week software engineering bootcamp focused on full stack JavaScript development

**Belmont University** | Nashville, TN

*Bachelor of Business Administration (B.B.A.)* - September 2010 to August 2014

- Double Major: Marketing; Information Systems Management
